Мобільний офіс Монті

Коли генерал Монтгомері перебував командуючим 8-ю британською армією у Північній Африці, він отримав у своє розпорядження штабний автомобіль спеціальної конструкції. Цей оригінальний транспортний засіб було створено на базі стандартного британського армійського автомобіля Leyland Retriever. На базове шасі була встановлена нестандартна конструкція, що представляла собою мобільний польовий офіс, внутрішня частина якого була розділена на дві кімнати. Раніше цей офіс належав італійському генералу Бергонцолі та був змонтований на вантажівці Lancia 3RO, а після того, як автомобіль генерала був захоплений підрозділом 7-ї британської танкової дивізії, конструкцію перенесли на шасі британського Leyland Retriever. Після завершення бойових дій у Північній Африці мобільний офіс було переміщено до Європи. В розпорядженні Монтгомері було ще два спеціальних вантажних автомобілі, один з яких було переобладнано як мобільну спальню кімнату, а інший використовувався для великих штабних карт та для нарад. Усі три автомобілі також відомі як «Караван Монті». Вони використовувалися генералом (а з 1944 року – фельдмаршалом) Монтгомері до самого кінця війни. В даний час ці автомобілі знаходяться в експозиції Імперського військового музею в Даксфордї.

Перед складанням уважно прочитати інструкцію з монтажу. Кожна деталь пронумерована. Дотримуватися послідовності монтажу. Необхідні робочі інструменти: ніж і напилець для зачистки деталей; гумова стрічка, клейка стрічка і прищипки для білизни (для притиснення олеюваних деталей). Деталі з пластику очистити в розчині м'якого миючого засобу і висушити на повітрі для того, щоб фарба і перевірі картинок краще прилипали. Перед приклеюванням перевірити, чи підходить деталі; клей наносити економно. Хром і фарбу видаляти з поверхонь олеювання. Невеликі деталі пофарбувати перед тим, як вони будуть віддалені з рамок. Фарбу необхідно добре просушити, тільки після цього продовжувати складання. Кожну відповідну перевірку картинок вирізати окремо і приблизно на 20 секунд занурити в теплу воду. На позначеному місці картинку відокремити від паперу і притиснути промокальним папером.

Read the instructions thoroughly prior to assembly. Each component is numbered. Adhere to specified sequence of assembly. Tools required: knife and file for removal of components from frame; rubber bond, adhesive tape and clothes pegs for clamping components together after applying adhesive. Clean plastic components in a mild detergent solution and allow to air-dry so that paint and transfers adhere better. Prior to applying adhesive, check to see whether the components fit together; apply adhesive sparingly. Remove chrome and paint from the contact surfaces. Paint small components before removing them from the frame. Allow paint to dry well, and only then continue to assemble. Cut out each transfer individually and immerse in warm water for approx. 20 seconds. Slide transfer off paper and into designated position, then press on with blotting paper.

Monty's Office Caravan

When General Montgomery was commanding the 8th British Army in North Africa, he was provided with a specially designed staff vehicle. This original vehicle was created based on the standard British army vehicle Leyland Retriever. A non-standard structure was installed on the base chassis, which served as a mobile field office. The interior of the vehicle was divided into two rooms. The small front room was equipped with a bathroom, while the larger room contained wardrobes for personal belongings and clothes, a writing desk with desk lamps, and a large sofa.

Previously, this office belonged to the Italian General Bergonzoli and was mounted on a Lancia 3RO truck. After the vehicle was captured by a unit of the 7th British Armoured Division, the structure was transferred to the chassis of the British Leyland Retriever. After the end of the combat operations in North Africa, the mobile office was moved to Europe.

Montgomery also had two other specialized trucks: one was converted into a mobile bedroom, while the other was used for large staff maps and meetings. All three vehicles became known as 'Monty's Caravan'. These vehicles were used by General (and from 1944, Field Marshal) Montgomery until the end of the war. They are currently on display at the Imperial War Museum in Duxford.
